

FACTS

ABOUT HOFTEX GROUP AG

- An internationally operating German textile company based at Hof for around 170 years
- One of Europe's largest family-managed textile manufacturers, with over 1,030 employees and about €138 million of turnover
- Successful reorientation to become a diversified provider of technical yarns and textile products
- Production capacities in Germany, Europe, North America, China and Italy are available for customers from the automotive, textile and consumer goods industries, as well as wholesalers/retailers, among others
- Long-term oriented and stable corporate development ensures a high degree of reliability and delivery dependability, even across product and development cycles spanning several years
- Strong capital base and financial resources enable the realisation of major and complex orders; further development of existing product areas in close cooperation with customers and targeted development and tapping of innovative textile solutions
- As a holding company, Hoftex Group AG bundles high-level functions such as IT, Human Resources, Tax and Law and promotes the mutual transfer of know-how and resources among its operating divisions

OPERATING DIVISIONS

The business division of HOFTEX constitutes the beginning of today's Hoftex Group. The highly automated production process allows a maximum of process reliability as well as flexibility and efficiency. The technical capability of the dyeing mill meets the requirements of international markets by preserving the natural resources in a sustainable manner which is of importance to the Group.

> Divisional Managing Director: **Joseph Wheeler, Andreas Peter**

With its around 730 employees, a market-leader in the development and manufacturing of innovative technical textile products and nonwovens, particularly for the automotive and cable industries, as well as for filtration applications and the consumer goods industry
